

“... you have done a terrific job!! ... We really appreciate the excellent site you have created... We can't thank you enough!!”
Robert Tucker (Business Manager)

WEB SITES THAT EVERY SCHOOL CAN AFFORD

A web presence has become a 'must have' in today's electronic world, but the costs are usually too prohibitive. That's why we have put together a great offer that finally makes having your own web site a reality.

SchoolPRO offers a full range of web design and web maintenance services. We work closely with you to provide the web site you need.

Our experience in web consultancy has been gained in both school and commercial environments. This helps us provide your school with a functional yet professional web presence.

Our aim is to provide an attractive web site that you can maintain yourself. We will even provide training to make this possible. This helps your school avoid the significant ongoing maintenance costs incurred when 3rd parties are needed to keep your site up to date.

Three great web site options:

Small Web Site (\$299*)

This is a simple and attractive 5 page site which includes an extra 5 documents (eg tuition fee schedule). It will meet all the needs of a school that thought they couldn't afford to have a professional web presence.

Medium Web Site (\$499*)

This is a good size 10 page site. It also includes up to 10 documents as well as attractive drop down menus.

Large Web Site (\$999*)

This is a great 23 page site, that has drop down menus, rotating flash images and many extra documents. It provides a space to promote the content that most schools require.

Custom Site Design (POA)

We can also custom design a site that is tailored to suit your exact needs.

All three options can be enhanced through our great optional extras:

- Full Featured Forum
- Search Facility
- Newsletter Facility

Check out our website for working samples of the all three sites.
